

West Virginians for Manufacturing Jobs PAC

2001 Quarrier Street

Charleston, WV 25311

Ms. Rebecca McPhail;

Thank you for contacting me and giving me an opportunity to share my views with your committee. I look forward to working with you, if elected.

1. My overall philosophy is to support our state and district and help to bring in industry and jobs.
2. I bring a willingness to work with a strong work ethic. I want to give back to our great state and the 58th district. I have always worked with integrity and honesty.
3. I have been affiliated with the Textile Union in PA. In WV I was a member of the Service Personnel Association.
4. Right now, the problem of opioid addiction is huge. I plan to support means to educate and prevent more addiction and to create ways of obtaining rehabilitation services for those addicted. COVID 19 has presented many challenges that will have to be dealt with over the course of the next few years. We must learn more about it and understand it before we can alleviate the threat.
5. I need more information before I can fully comment on this issue.
6. I believe we need to find ways to attract business, one is to provide attractive locations for business industrial parks with central water and sewage already available.
7. We need to begin with education for children to break the cycle, rehab centers need to be available without waiting lists for anyone with or without insurance.
8. Our constitution was founded on the Bible. We need to respect all people. We may not always agree on lifestyle choices, but we need to respect all people.
9. We need to first support education and retain teachers to provide a quality education for our children. We need to promote students learning trades by providing trade schools such as James Rumsey to provide services needed in our state. This will create a skilled workforce.
10. (Need the proposed rule to know how to answer) what limits what permit
11. We need to protect our natural resources yet at the same time support industry. We need to use a common sense approach to find the balance required.
12. I want to represent the people of the 58th District with integrity and honesty. I want to give back to our state.
13. Yes
14. Checkingeorge.com

Sincerely,

George A. Miller

Candidate 58th District House of Delegates
